

User manuals

Porablot PVDF Membrane

741260

Dear valued customer,

Thank you for choosing MACHEREY-NAGEL for your application. We have attached a short protocol for your review.

To obtain the best results we recommend to follow the detailed protocol available online, especially when you are a first time user of this kit.

All important links to the above mentioned product are listed in this leaflet.

Important information regarding product components, specifications, safety instructions, and processing protocols, can all be found on the product website and accessed easily via the QR code.

QR-Code product website

[qr.mn-net.com/qr/\(241\)741260](https://qr.mn-net.com/qr/(241)741260)

Use the following QR code or the link below for direct access to the user manual.

QR-Code user manual

It is strongly recommended to read the detailed protocol section of the user manual if using the kit for the first time. However, experienced users may refer to the protocol at a glance. The protocol at a glance is designed to be used only as a supplemental tool for quick reference while performing the purification procedure.

We are constantly improving our products and we reserve the right to make changes or additions to protocols. Please check for updated revisions for previously downloaded manuals.

This is a short overview of protocols included in the manual. This leaflet does not replace the full manual!

Protein transfer:

- Electrotransfer of proteins
- Protein dot blots

Detection:

- Detection by 125I-Labeled Antibodies
- Immuno detection

Staining:

- Direct staining of proteins on Porablot PVDF membrane

Example antibody detection systems:

- Monoclonal antibody systems
- Polyclonal antibody system

Example substrate systems:

- Alkaline phosphatase
- Peroxidase Diminobenzidene (DAB)
- Alternative substrates

QR-Code Safety Data Sheet

Please find a digital version of the safety data sheets by following the link below:
