explétif la cuve de mesure
echar en tubito de medida

9
bis Kreuz unsichtbar
till cross invisible
jusque croix invisible
hasta cruz invisible

Bei geeigneter Verdünnung in den Messbereich auch zur Bestimmung von Sulfat in Meerwasser geeignet.

Also suitable for the determination of sulfate in seawater with appropriate dilution in the measuring range.

En cas de dilution appropriée dans la plage de mesure, convient également pour la détermination du sulfate dans l'eau de mer.

También es adecuado para la determinación de sulfato en agua de mar cuando se diluye adecuadamente en el intervalo de medida.
