

User manuals

Starter Set C

740684

Dear valued customer,

Thank you for choosing MACHEREY-NAGEL for your application. We have attached a short protocol for your review.

To obtain the best results we recommend to follow the detailed protocol available online, especially when you are a first time user of this kit.

All important links to the above mentioned product are listed in this leaflet.

Important information regarding product components, specifications, safety instructions, and processing protocols, can all be found on the product website and accessed easily via the QR code.

QR-Code product website

[qr.mn-net.com/qr/\(241\)740684](https://qr.mn-net.com/qr/(241)740684)

Use the following QR code or the link below for direct access to the user manual.

QR-Code user manual

[qr.mn-net.com/qr/\(IFU\)740684](https://qr.mn-net.com/qr/(IFU)740684)

It is strongly recommended to read the detailed protocol section of the user manual if using the kit for the first time. However, experienced users may refer to the protocol at a glance. The protocol at a glance is designed to be used only as a supplemental tool for quick reference while performing the purification procedure.

We are constantly improving our products and we reserve the right to make changes or additions to protocols. Please check for updated revisions for previously downloaded manuals.

This is a short overview of setups included in the manual. This leaflet does not replace the full manual!

Starter Set C - Handling

Figure 1: Column Holder C (note top left mark for orientation)

NucleoSpin® Binding Strips
in Column Holder C

MN Square-well Block

Figure 2: Setup during binding / washing / elution steps

NucleoSpin® Binding Strips
in Column Holder C

Rack of Tube Strips

Note: During centrifugation,
new Tube Strips are aligned under the
8-well strips to collect the eluate (↑).
The other rows have to be filled with Tube
Strips supplied in the Starter Set C to
support the Column Holder C on the rack.
